ALTERNATIVE CANCER TREATMENT THIS INFORMATION COULD SAVE YOUR LIFE ...

New York, NY - April, 15 2006 - Learn how over 2,000 people have successfully used the alternative cancer treatments you'll find revealed in this e-book. Discover over 350 gentle & non-toxic cancer treatments that no one else will tell you about!

"The best reference books on alternative cancer treatments. What a treasure for cancer patients and caregivers!" Bill Henderson, The author of Cancer Free and the Cancer Free Newsletter.

Unbelievable as it may seem, 18 months of research by a blue-ribbon research team shows there are over 350 existing natural and alternative cancer treatments. People have used these gentle and non-toxic treatments instead of or alongside conventional treatment, or after conventional treatment has failed. What's more, thousands of people are using them RIGHT NOW and beating their cancer!

Your doctor may not be aware of these treatments because he or she can only prescribe and is knowledgeable about, treatments that are regulated by the FDA...many of these treatments involving herbs and vitamins are outside the jurisdiction of the FDA. Natural Cancer Treatments is a collection of over 350 natural and alternative cancer treatments. The more than 80% of surveyed oncologists who stated they would refuse chemotherapy if they had cancer would surely want the benefits of these treatments for themselves and their families. And now you will know the secrets too... page after page of eye-opening information that you can and should discuss with your doctor.

If you really want to find a way to cure cancer, this book will provide the information that can help you. It is indeed an eye-opener.

About Natural Cancer Therapies Natural Cancer Therapies is a solely owned and operated company by health counselor, author, and writer, Harry Husted. The principle

services include health-related information on cancer and cancer treatments. About Harry Husted Besides being a computer wiz, Harry is also a health counselor, freelance writer, author of three books, and educator.
